ETICA OBBLIGAZIONARIO BREVE TERMINE SISTEMA ETICA

Unit classes: I **ISIN code:** IT0004782352 **Assogestioni Category:** SHORT-TERM GOVERNMENT BONDS, EURO

Open-ended mutual investment fund operating under Italian law falling under the scope of application of Directive 2009/65/EC.

Management Company (AMC): **Etica SGR S.p.A.**, member of the Banca Etica Group.

INVESTMENT POLICY AND OBJECTIVES

Objectives

The Fund aims to obtain a contained increase in capital invested with respect for environmental, social and governance principles.

Investment policy

The Fund mainly invests in monetary financial instruments and bonds, issued or guaranteed by governments or supranational and international bodies and, residually, in instruments issued by companies. Investments are mainly made in regulated markets of countries within the Eurozone.

In situations that are contingent on and specific to the short-term interest rate curves, should inadequate investment opportunities be identified, the fund can hold liquidity, in the best interest of the investors, in a limited amount, even for needs other than those relating to the treasury.

Rating: mainly investment grade.

The duration of the bond component is generally 1.5 years.

Equity securities or those with share options are excluded.

The Fund has the right to use derivatives solely to cover portfolio risks. The value of financial instruments in foreign currencies held by the fund cannot exceed 30% of total fund assets. In any case, financial instruments in foreign currencies can be exposed to risks associated with changes in exchange rates up to a maximum of 10% of the total net value of the fund. All financial instruments are selected after careful analysis of the issuers' social and environmental responsibility.

For a description of the criteria used, see paragraph 5 in Part B) of the Fund Rules.

Unit reimbursement

Investors may request partial or total reimbursement of the units held in the Fund on any business day.

Benchmark

Management of the Fund is inspired by a benchmark, consisting of the following indexes:

- 80% JP Morgan EMU 1-3 years
- 20% ICE BofAML Euro Treasury Bill Index

The Fund does not aim to replicate the composition of the benchmark; therefore, it also invests in financial instruments not included in the indexes or present in different proportions.

Degree of discretion relative to the benchmark: *limited*

Destination of profits

Profits achieved by the Fund are reinvested in the Fund's assets.

RISK AND RETURN PROFILE

LOWEST RISK
Potentially
lower return

HIGHEST RISK
Potentially
higher return

The summary risk indicator classifies the Fund on a scale from 1 to 7 on the basis of the historical annual volatility of the Fund observed over the previous 5 years.

The Fund has been classified in category 2, as the variability of weekly returns over 5 years is between 0.5% and 2%.

Historic data used to calculate the summary risk indicator does not necessarily constitute a reliable indication of the future risk profile of the Fund.

The risk/return category shown may change and the classification of the Fund may also change over time.

The lowest indicator category does not denote a risk-free investment. The Fund is exposed to risks not adequately shown in the summary risk indicator, listed below:

Credit risk

Risk that the issuer of a financial instrument does not comply, also partially, with its obligations to reimburse capital and pay interest.

EXPENSES

Expenses are used to cover the Fund's management expenses, including commercialisation and distribution costs.

These expenses reduce the potential returns from the investment.

One-time expenses withdrawn before or after investment	
subscription expenses	Not envisaged
Reimbursement expenses	Not envisaged
Maximum percentage that can be withdrawn from capital prior to investment	
Expenses withdrawn from Fund in one year	
Ongoing charges	0.42%
Expenses withdrawn from the Fund based on certain specific conditions	
Performance fees	Not envisaged

Explanation of expenses and declaration of their importance

Ongoing charges, expressed on an annual basis, refer to expenses sustained by the Fund in the previous year concluding in December 2017; this amount may vary from one year to the next and excludes portfolio transaction costs.

Exemption from paying **fixed fees** is envisaged, with exception to the cost relating to the issue of each certificate, for which the amount is indicated in the Prospectus.

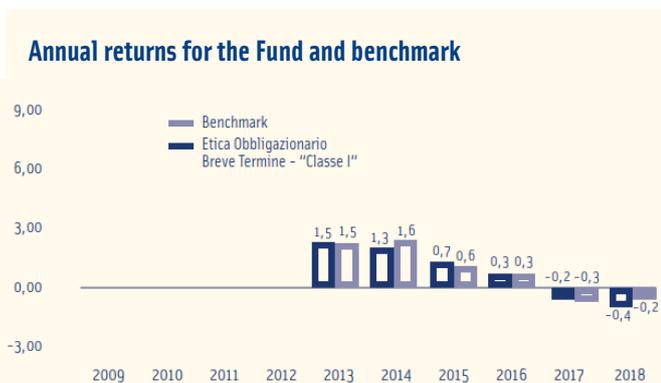

Subscription is exempt from entry and exit fees.

Optional subscription fees are envisaged for the customer, up to 0.1% of each amount paid, with the aim of creating a Fund to support initiatives financed through **microfinance** and **crowdfunding** in Italy.

For the actual amount of charges applying to the customer, the investor must contact their own consultant or distributor.

For more information on expenses, please see section C of Part I of the Fund Prospectus, available at www.eticasgr.com.

PAST RESULTS

The Fund has been in operation since 18.02.2003.

The diagram below shows past results for class I units in the Fund, which has been in operation since 02.02.2012.

In calculating past returns, subscription costs applying to the Investor are not included and neither is, as of 01 July 2011, taxation on results achieved by the Fund. Expenses applying to the Fund are included (e.g. management fees, Custodian payment).

Past return figures are calculated in Euro.

Past performance does not guarantee future results.

PRACTICAL INFORMATION

- **Custodian:** Banca Popolare di Sondrio – Società Cooperativa per azioni, with registered office in Sondrio, piazza Giuseppe Garibaldi 16.
- Additional information about the Fund, copies of the Fund Rules, the Prospectus, the last annual report and the interim report are available free of charge in Italian on the Management Company's website, www.eticasgr.it, as well as at the offices of the Company and its distributors. The Fund's accounting documents are also available at the Custodian.
- Fund units can be subscribed through a single payment or through Accumulation Plans.
The minimum single payment is € 500,000.00. For payments through Accumulation Plans, the minimum unitary amount is € 50.00 or a multiple of the same. For more information about subscription methods, please see the Fund Rules and the Prospectus.
- The individual value of the unit is calculated daily by the Management Company, except on days when the Italian stock market is closed and on Italian national holidays. In any case, the individual value of the unit relative to the last business day of every year is calculated, even if the Italian stock market is closed. The

individual value of the unit is published daily in the newspaper "Il Sole 24 Ore" and on the website www.eticasgr.com.

- The Fund is subject to Italian tax laws. These laws may affect the personal tax position of investors.
- Updated and detailed information on remuneration policies and practices and staff incentives, including criteria and methods used to calculate remuneration and other benefits and the entities responsible for determining remuneration and the assignment of other benefits, is available on the AMC's website. A paper copy or a copy on other media with the same information can be obtained by investors free of charge, upon request.

For more information, the investor may contact their consultant or distributor.
