

Etica Obbligazionario Breve Termine

(Class I)

Fund classified as Article 9 product in accordance with Regulation (EU) 2019/2088 as product targeting sustainable investments.

A **Bond Fund** which aims to achieve a moderate increase in the capital invested. It is recommended for those who want to invest responsibly over a short-term time horizon with a low level of risk whilst complying with **environmental, social and governance (ESG) criteria**.

Class I is reserved for institutional clients*

Strengths

Low volatility:

Within the context of its monetary and bond investment policy, the fund invests primarily in short-term government securities in the euro area and also takes advantage of **opportunities arising from residual exposure to corporate issuers**.

ESG analysis:

as a result of our **proprietary methodology** of ESG analysis, **ESG EticApproach®** (registered trademark of Etica Sgr S.p.A.), the fund is characterised by a rigorous selection of countries and companies that are focused on environmental protection, respect for human rights and good corporate governance.

Control of financial and non-financial risks:

through the proprietary risk metric, the **ESG Risk**, Etica Sgr supplements the calculation of financial risk with the measurement of risk from environmental, social and governance (ESG) factors that can have an impact on performance.

Simplicity:

The fund has no entry, exit, switch and performance fees** and uses derivatives only to hedge portfolio risks.

Investment Policy

- The fund invests primarily in government securities issued or guaranteed by sovereign issuers or supranational and international organizations and, to a residual extent (maximum 10%), in corporate bond with **limited financial duration and a high credit rating**, belonging mainly to **EU markets**.
- Investment in Emerging Market stocks and bonds is excluded.
- The fund is characterized by an **active management style**, which integrates issuer sustainability analysis with economic and financial analysis. The management team selects securities by taking the best opportunities to position on the short part of the rates curve. Overweights/underweights compared to the benchmark are possible.
- All financial instruments are selected based on an **accurate analysis of issuers' ESG (Environmental, Social and Governance) responsibility**. The fund does not invest in controversial countries and sectors (such as countries that use the death penalty or do not respect civil rights, or the oil, weapons, nuclear energy and gambling sectors) and issuers with **higher ESG scores** are then selected during the "positive selection" phase.
- The fund's objective is an annual average value of ESG Risk, calculated on the 12 month-end figures of the securities portfolio, not exceeding 30% of the theoretical maximum risk***.

* "Institutional clients" refers to private and public professional clients as defined in art. 35, paragraph 1, letter d) of the Intermediaries Regulation (Consob Resolution No 20307/2018) and eligible counterparties.

** For information on the costs regime, please refer to the KIID and section C of Part I of the fund prospectus that are available from the distributors and to the website www.eticasgr.com.

About us

Etica Sgr is the only Italian asset management company today that proposes only sustainable and responsible mutual funds. Etica considers the principal adverse impacts of its investment decisions on sustainability factors. The Principal Adverse Sustainability Impacts Statement and the Sustainable and Responsible Investment Policy are available here:

<https://www.eticasgr.com/en/responsible-investment>.

ESG Selection

Issuers are selected through a **process that includes the ESG analysis and the financial analysis**. Both stocks and bonds included in the portfolio of funds of Etica Sgr are subject to a double screening: the application of negative exclusion criteria with regard to certain sectors or market activity for companies and countries for government securities and the application of positive evaluation criteria based on sustainability issues.

ESG Risk

The ESG Risk is a proprietary methodology that calculates risk from environmental, social and governance factors to quantify its impact on a mutual fund's stock returns. ESG Risk is the indicator that best represents the sustainability objective pursued by the Etica Funds' Italian mutual funds. For further information: <https://www.eticasgr.com/esg-risk>

Engagement

We encourage the companies in which the funds invest to engage in sustainable and responsible behaviour in the medium to long term through **dialogue** with management and the **exercise of voting rights**. Each year we report on the key results of our activity in the **Engagement Report**.

Our impact

Our idea of responsible investment combines the aim of achieving **potential positive financial performance** with that of generating **positive environmental and societal effects**.

Through the **Impact Report** we present the ESG results of the equity investments of our funds in relation to the reference market (MSCI World Net Total Return in Euro). By measuring the **carbon footprint**, we report the carbon footprint of the equity investments of our funds as required by the Montréal Carbon Pledge of the UN PRI.

Contribution to microfinance and crowdfunding

At the time of subscription, the funds of Etica Sgr provide for the possibility of allocating 0.1% of the invested capital to a fund that guarantees microfinance projects and supports crowdfunding initiatives with high social value, selected by Banca Etica in Italy.

This document has been prepared by Etica Sgr S.p.A. and is for information and promotional purposes only and is intended for private and public professional clients as defined in art. 35, paragraph 1, letter d) of the Regulation on Intermediaries (Consob Resolution No 20307/2018) and eligible counterparties.

The data, information and opinions herein do not constitute and cannot under any circumstances be construed as an offer or an invitation or a recommendation to make investments or disinvestments, or a solicitation to purchase, sell or subscribe for financial instruments or financial, legal or tax advice or investment research, or as an invitation to make any other use thereof. The personal investment objectives, situations and financial needs of potential recipients of this document have not been taken into account in its preparation. Investment in a fund entails risks associated with potential changes in the value of the units, which are in turn affected by fluctuations in the value of the financial instruments in which the fund's resources are invested. Investors should only carry out operations involving this type of instrument if they understand the nature and level of risk exposure that these entail, by carefully reading the offer documentation, to which they should refer (the KIID and prospectus are published on the website at www.eticasgr.com).

The recipients of this message assume full and absolute responsibility for the use of the data, information and opinions contained herein and for any investment decision made on the basis of the same, as any use to support investment decisions is not permitted and is entirely at the user's risk.

Etica Sgr has adhered to the United Nations Principles for Responsible Investment (PRI) since 2009, becoming **the first Italian company to sign the commitment to incorporate ESG (environmental, social and governance) criteria** into its investment and active ownership decisions.
