

# Etica Obbligazionario Misto (Class I)

Marketing communication

**Fund classified as Article 8 product that promotes, among other characteristics, environmental or social characteristics in accordance with the Sustainable Finance Disclosure Regulation (SFDR).**

**A mixed bond fund** that aims to achieve a gradual increase in invested capital by combining the solid bond base with the search for value in the equity markets. The fund is recommended for those looking to invest responsibly with a medium-term horizon and a medium to low level of risk whilst complying with **environmental, social and governance (ESG) criteria**.

**Class I is reserved for Professional Investors.**

## Strengths

### Diversification:

the fund invests in bond markets, predominantly in the euro area, and residually in global equity markets, seeking the best opportunities at thematic, geographic and sector level.

### ESG analysis:

as a result of our **proprietary methodology** of ESG analysis, **ESG EticApproach®** (registered trademark of Etica Sgr S.p.A.), the fund is characterised by a rigorous selection of countries and companies that are focused on environmental protection, respect for human rights and good corporate governance.

### Control of financial and non-financial risks:

through the proprietary risk metric, the **ESG Risk**, Etica Sgr supplements the calculation of financial risk with the measurement of risk from environmental, social and governance (ESG) factors that can have an impact on performance.

### Return opportunities:

the fund aims to create return opportunities from a medium-term perspective, rewarding **countries and companies that demonstrate sustainability** from a financial and ESG perspective.

### Simplicity:

the fund has no entry, exit, switch and performance fees<sup>1</sup> and uses derivatives only to hedge portfolio risks.

## Investment Policy

- For the **bond component**, the fund invests primarily in securities of sovereign issuers and supranational and international organizations and, to a residual extent (maximum 10%), in corporate bonds, mainly in the **regulated markets of the euro area**. For the **equity component**, the fund invests in securities, denominated in euros and in foreign currency, diversifying investments across economic sectors predominantly in **developed markets**<sup>2</sup>.
- Equity investment: up to 20%.
- The fund is characterised by an active **management style**, which integrates issuer sustainability analysis with economic and financial analysis to identify and anticipate possible future trends. The management team combines the "top down" used for asset allocation with the "bottom up" approach for stock and issuer selection. Overweights/underweights compared to the benchmark are possible.
- All financial instruments are selected based on an **accurate analysis of issuers' ESG (Environmental, Social and Governance) responsibility**. The fund does not invest in controversial countries and sectors (such as countries that use the death penalty or do not respect civil rights, or the oil, weapons, nuclear energy and gambling sectors) and issuers with **higher ESG scores** are then selected during the "positive selection" phase.

<sup>1</sup> For information on the costs regime, please refer to the KIID and section C of Part I of the fund prospectus that are available from the distributors and on the website [www.eticasgr.com](http://www.eticasgr.com).

<sup>2</sup> The fund offers no guarantee of return and do not ensure repayment of invested capital.

### About us

Etica Sgr is the only Italian asset management company today that proposes only sustainable and responsible mutual funds. Etica considers the principal adverse impacts of its investment decisions on sustainability factors. The Principal Adverse Sustainability Impacts Statement and the Sustainable and Responsible Investment Policy are available here: [eticasgr.com/en/responsible-investment](http://eticasgr.com/en/responsible-investment).

### ESG Selection

Issuers are selected through a **process that includes the ESG analysis and the financial analysis**.

Both stocks and bonds included in the portfolio of funds of Etica Sgr are subject to a double screening: the application of negative exclusion criteria with regard to certain sectors or market activity for companies and countries for government securities and the application of positive evaluation criteria based on sustainability issues.

### ESG Risk

The ESG Risk is a proprietary methodology that calculates risk from environmental, social and governance factors to quantify its impact on a mutual fund's stock returns.

For further information: [eticasgr.com/esg-risk](http://eticasgr.com/esg-risk)

### Engagement

We encourage the companies in which the funds invest to engage in sustainable and responsible behaviour in the medium to long term through **dialogue** with management and the **exercise of voting rights**. Each year we report on the key results of our activity in the **Engagement Report**.

### Our impact

Our idea of responsible investment combines the aim of achieving **potential positive financial** performance with that of generating **positive environmental and societal effects**.

Through the **Impact Report** we present the ESG results of the equity investments of our funds in relation to the reference market (MSCI World Net Total Return in Euro). By measuring the **carbon footprint**, we report the carbon footprint of the equity investments of our funds as required by the Montréal Carbon Pledge of the UN PRI.

### Contribution to microfinance and crowdfunding

At the time of subscription, the funds of Etica Sgr provide for the possibility of allocating 0.1% of the invested capital to a fund that guarantees microfinance projects and supports crowdfunding initiatives with high social value, selected by Banca Etica in Italy.
